Respectfully MYRON H. M'CORD, STATE OF TRADE.

(Summary from Bradstreet's)

The year opens with a tone of quiet confidence prevading nearly al branches of business, with encourag ing activity in the iron trade, a re umption of work by thousands of industrial employees in the western glass industry, a largely reduced volime of business failures as compared with corresponding periods in preceding years, and a general outlook certainly not inferior to any previou year at this time. Distributive trade has naturally been rather slow pendfeature unconfined to any one section, the delayed rain has come and re-lieved the anxiety of the farmer and the necessary, who began to fear a dry year.

The cold snap of December, it has been demonstrated, effected only about 1-10 of the orange crop, and the succeeding warm weather has caused succeeding warm weather has caused succeeding warm weather has caused succeeding warm to fall. The crop is mg. ets, and lower prices for cotton goods mills have been very generally accept ed. The jewelry trade has been en couraged by the small number of fail ures occurring in that line. Prepara-tions for an active Alaskan trade are making on the Pacific Coast, and need ed rains are reported in California. Prices have shown few important changes and steadiness is a leading eature. Naturally enough there is a slight gain in the number of failures reported this week over last, the total aggregating 333 against 297 last week, but a heavy falling off from 1897.

n this week of 1896 was 446. Bank clearings this week of cours effect annual settlements, but even with this qualification the total is still very large, having been exceeded only four or five time in the history of the ountry. The total for the first week of January aggregates \$1,418,000,000, a gain of 18.6 per cent, over last week of 24 per cent, over this week a yea ago, of 15 per cent, over 1896. Spe cially telegraphed returns of bank clearings for the year 1897 to Brad-street's give a total of bank clearings at 72 cities of \$56,921,433,000-a gain of 11.9 per cent, over 1896-a larger total than in any preceding year since

and stocks has assumed increased activity this week, and the New York culative stock market is also active and higher, with a large accession of public buying. The market waited for he first two days of the week for the ompletion of the Union Pacific paynents and of the January settlements These are now accomplished and the market encouraged large speculative nterests to renewed activity on the bull side. The purchase of a controll-ing interest in Sesquehanna & Western by Messrs. Morgan & Co. for the Eric Railroad gives promise of further ed by the active steps taken to main tain trunk-line rate. Foreign exchange is strong at 4.85@4.85% for demand sterling on an increased in-

Bank fallures in 1897 followed th in all other lines of business. The reoutation of the banking community out by the relative heavier falling off n the number of failures and the re luced volume of liabilities of banks and trust companies, as compared ommercial circles. The total number failures of national, state, savings and private banks and loan and trus companies in 1897 was 105, a little than one-fifth those of the panic year 1893. Liabilities also showed a heavy alling off, being 60 per cent, smalle chan 1806 and 90 per cent, smaller than 1893. The number and liabilities, owever, were slightly larger than The percentage of assets to mullest reported since Bradstreet's ecord of bank suspensions was begun. A trifle gain was shown in the world's visible supply of wheat durng the month of December, 1897, as reported by telegraph and cable Bradstreet's, due e firely to an in crease in visible stocks in the United utable largely to the squeeze of shor sellers at Chicago during that monpoints. Stocks in Europe and affoa month of 1.483,000 bushels, and thos on the Pacific Coast of this stated that the gravel carries from 25 fell off nearly 300,000 bushels, which was more than counterbalanced, how untains in this country, making the net increase for the month orld's visible stock 2,831,000 bushels The visible supply of wheat in this country on January 1, 1898, was 60, 834,000 bushels, 17,000,000 bushels smaller than a year ago at this date and the smallest January 1 stock reported in this country since 1891. The total world's supply on January to 132,434,000 bushels. gain over July 1, 1897, of 54,000,000 but a falling off of 6,729,000

ushels from January 1, 1897. The holidays have exercised their spected effect on export trade in he United States and Canada for the first week in January amounted to 3,481,576 bushels, against 5,495,000 bushels last week, 3,108,000 bushels n this week a year ago and 3,471,000 ushels last week, 4,819,000 bushels in ris week a year ago and 2,626,000 ushels in the corresponding week of

## A TREAT IN MINSTRELSY.

well known Mahara's Minstrels, who ngagement. Past promises faithfully ulfilled assure us that the company all that is claimed for it. In looking over the list of artists we find the names of the well known Billy Young and Charlie Cass, which is a sufficien guarantee that a night of hilarity is t e expected. In connection with the we find the names of LeRoy Bland, a male soprano, whose voice has a wonderful sweetness of tone and wonderful compass. Rube Brown, whose dancing more than satisfies all lovers of terpsichorean art contortionist, Master Hillard Brewer whose act is all that is claimed for it, is a real novelty. Taking the program from start to finish it is one should command full houses, as it is away from the old style of minstrelsy, which we have heard for so many

WASHINGTON LETTER.

Newsy Chatter From the National

Capital. Washingtion, Jan. 10, 1898. Ed. HERALD:-It is difficult to predict accurately when the debate on the Hawaiian annexation treaty will end, nor will the discussion be reported in full as it takes place in executive session, behind clos the final result will be is also uncer tain at this writing. The latest and most reliable poll shows that fifty-six Senators favor the treaty, while thirty three oppose it, which would indicate probable failure of the treaty. But the administration expects to secure the four additional votes required to make the necessary two-thirds from the ranks of the seven or eight Senators who are now mildly opposed, yet open to conviction. Senator Heitfield. of Idaho, has been one of these, but recently came out in favor of annexa-Party lines are not drawn upon it, though every Republican Senator will vote for the treaty. Twentynine of the opponents are Democrats three Populists and one silver Repub ican. The debate will undoubtedly be nteresting and the proposition to throw open the doors and let the disassion go on in open session may have stimulate some demand. Wage reductions at New England cotton Mares. anally prevail. It is not now expected

The assection is made by Congressman Loud but the exclusion of serial book publications and sample copies of periodicals from the privileges of second-class postariates would effect a saving to the Government of \$13,000,000 a year. Friends of the measure which Mr. Loud has prepared ure which Mr. Loud has prepared claim that these two items comprise the source of the deficit in the revenues of the postal service, but others Mr. Gillett has removed the mill 800 Mr. Gillett has removed the mill 800 Mr. Gillett has removed the mill 800 Mr. nues of the postal service, but others point to the enormous amount of mail ional and department franks. This free matter amounts to hundreds of tons per annum, but there is no detuned to the new operators. The Gold Note and the new operators. The Gold Note and the new operators. nand that it be cut off. It was never Surprise mines are among the best deintended or expected that the postal service would be self-supporting. The people get the benefit of it and they people get the benefit of it and they expect to pay for it. The Lond bill be running some time this week. has some good features, but it is not perfect and will not pass in its pres ent shape.

At some of the hotels in Washinglies are quartered the social functions include regular weekly card parties, progressive euchre, etc., at which their friends from the other houses will be of interest and benefit to hog raisers everywhere. He says: ies, progressive euchre, etc., at which their friends from the other houses are invited. These games, with their prizes and other inducements, are great contests in which the deepest interest is taken by both the men and women. Interferences are looked on with annoyance. There is one genial Senator among the contestants on these occasions who, while he does not play a strong game at cards, thoroughly enjoys the meetings, and persists in telling his stories and making observations in the most interesting portions of the game. At a recent meeting he had a fair run of luck, and was about to reach the head table. One of his opponents was Congressman P., who is a veteran at cards. The Senator and his partner had four points won, while the Representative and his partner had but three. The next hand would decide who should go to the head table. The cards had been dealt, when the Senator, recalling some play that had been made, reing some play that had been so

"That play was almost heard a judge pronounce in my State arrying concealed weapons. he had been locked up it was discov ered that he had committed murder. He was tried on that charge, convicted, and the court in passing senten said: 'Under the verdict I sentence rou to the penitentiary for life, and when you have served your sentence ou may serve two months more for arrying the weapon.' During followed the ounded and the Senator and partner progressed to the head Representative P.'s face was The hand he had received at study. he time the Senator began telling he story, had he been allowed to play it, would have enabled him the game. But the story prevent ed it, and as the Senator and his part ner left, the discomfited M. C. leaned. over and half audibly remarked to his ver tells a funny story at a card game.

Mr. R. G. Wilder, of Colorado, who ecently returned from Klondike, is low in Washington and has expressd positive views relative to the relief neasures under consideration. m satisfied that the cheme of Government relief for the Clondike miners will prove a failure,' aid Mr. Wilder. "Owing to the numrous gorges, the ice in the rivers nd lakes is so rough, being in many laces piled to a height of from thirty o fifty feet, that it is impossible cut a trail through before it would disappear from natural causes been in that country and know what I am talking about. This con dition exists for 500 miles. It would be impossible, in my judgment, take reindeer or any other sort of animals in there at this season, and the only possible way to reach the ection is to pack the supplies on the acks of men. I do not think there will be any actual starvation at Dawon, but the supply of provisions there is too scant for comfort. When came away last summer I saw atting cereals. Wheat exports from \$125 offered for a sack of flour, but the proposition was declined.

This is the first administration for welve years to be without a headsman. Under Cleveland, under Harri and under Cleveland 1896. Corn exports also show a sensible diminution, amounting to 4,086,000 Clarkson and Headsman Maxwell Clarkson in the Wash were more conspictuous in the Washngton dispatches than most Cabinet dieers, In 1885, 1889 and 1893 the heads of the fourth-class postmasters cell by hundreds every working day Now no one knows who is Third As istant Postmaster-General. Here i one indication that the present is ivil service reform administration.

Somebody has been analyzing in orted silks, and found out that they ontain as much tin, according to neir thickness, as a medieval coat of nail. They are composed, some of hem, largely of the oxide and sil'ca. erganic matter which is not silk, and ultrogen. There is a small percentage of silk, a little bit of righteous ness to save the city. But most of the silk is tin oxide. This is another proof that everything on earth omething else at heart.
